Survey feedback

Banner:

Most people liked my banner and all of them gave me 4 or 5 out of 5 for my banner. Some commented on the color of the banner and

Color scheme:

I got between 3 and 5 out of 5 for my color scheme with an average of 5. One person mention that the color scheme need to change but all the others said they liked it.

Navigation:

The same for the navigation. I have an average of 4 out of 5. I cant see any problem with the navigation. All the links and hyper links work.

Text:

I got between 3 and 5 out of five for the text with an average of 4.5 Some of the text is hard to read and a bit small. They also said that on the individual pages, the text should be more spread out and not all on top of the page.

Splash graphic:

On average I got 4 out of 5 for my splash graphic. They liked the photo square thing. And said that the color of the background go well with the rest of the site.

Over all comments:

Someone mentioned that it will be better to put the 'about me' page right after the 'home page' which sounds like a good idea. The over all comment on my color scheme is good. Most people liked it.

Things to improve:

To improve my site I would change the order of the links to put the “About me” page right after the home page. I would also change the names of the tabs to the name of my site.
