It looks cool and funky something to keep in mind. </p>

<p>http://www.bratz.com/</p>	<p>28th July 2009</p>	 <p>Title: Bratz.com – Home This loads very fast which is good. It also has drop down menus which give the reader more choice. This makes the reader feel like they are in control which is a good thing.</p>
<p>http://disneydvd.disney.go.com/cinderella-special-edition.html</p>	<p>28th July 2009</p>	 <p>Title: Cinderella Special Edition The roll over's on the main buttons have picture in which come up when you roll over the word. These pictures look cool because they have something to do with the word. It gives a positive unexpected feel about it.</p>

<p>http://will-i-am.blackeyedpeas.com/</p>	<p>28th July 2009</p>	 <p>Title: Will-i-am.com – The Official Website This website is good because it gets the audience to interact with it by having to press the play button on the media player, instead of it just starting itself. Also the way that the buttons are set up are very clear so the audience will not get lost in the site.</p>
<p>http://www.blackeyedpeas.com/</p>	<p>30th July 2009</p>	 <p>Title: BlackEyedPeas.com This website uses the colours black, brow, red and green which gives the website a serious look to it. By using the artistic graphics it makes the page look high Tec, which would impress the targeted audience.</p>
