Once reading a little about you, the site tells of your orientation of teaching children which really suits your colour scheme. However, if you were going for a professional effect then I would chose different colours. Your site is easy and effective; leaves a great impression. Well Done!1:)

9/9/2009 21:32:39	Byron	Male	15	Busselton	3	2	3	2	3	1	5	I liked your fromer basnner as it was far more creative. Site lacks in general content but is still farly productive. The from could do with a bit of work, sucj as the question "how useful is the text?" well of course its useful you use it to read greez. reword the questions and get the flash running. Awarded an ok wow beky, it looks realy good. it got a nice consistent color scheam. however i did like the banner befor, this one is a little to p,lain and symple, and because of this you dont notes it when you enter the site.
